Testing environment

Operating System:	Windows 10 PRO (64-bit)
Browser:	Google Chrome Version 111

Recommendations

- Fix the problems with Export facility, "Excel" and "Plain text" formatted file export shows a "502 Bad Gateway" error (QATC-769138);

- Resolve the defects with Language changes to "English" when searching for anything in "German" language selected (QATC-768971);

- Fix issues associated with these date fields "Display on web from and Display on web to" that are disabled (QATC-769340;

- Resolve the defect On Opportunities management, "Filter" button doesn't return the corresponding filter after clicking on it (QATC-769284.

QA team

Company:	a1qa
QA manager:	Elena Shpungina

Additional information

| Testing dates:	04.03.2023 - 10.03.2023
Time spent:	42 hours

Voyage
Product version: 1.0

General quality analysis
The overall quality of the application can be estimated as **Medium**. The total number of defects is 43. Functional defects prevail, 02 of them have the Critical severity, 10 defects gain the Major severity and 13 defects gain the Average severity. The majority of defects is opened for modules "Back-office: Opportunities Management" and "Front-end: Search facility/opportunities listing". A detailed quality analysis is presented below.
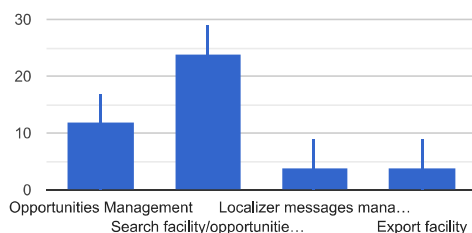

Detailed quality analysis

The total number of defects by severity

- Critical
- Major
- Average
- Minor

The chart shows the statistics of defects by the degree of the negative impact they have on the application. Almost **27%** of issues have **Critical** and **Major** severity. **Average (30%)** defects, And there is also **Minor (41%)** defects prevail.

The total number of defects by components

The chart represents defects quantity on separate modules. The majority of issues actual in **"Back-office: Opportunities Management" module (21)**, in **"Front-end: Search facility/opportunities listing" module (14)**, **"Back-office: Localizer messages management " module (04)**, and in **"Back-office: Export facility " module (04)**.

Quality of separate modules

Module	Quality	Comments
Localizer messages management	• High	The quality of this section can be estimated as High. Only 04 defects were found here. The issue (QATC-769254) the Language drop-down has "Any language, English, German" items instead of only "English, German" (QATC-769258) edit section only shows 1st time selected values when clicking on any of the message details.
Opportunities Management	• Low	The quality of module is estimated as Low. In this section 21 defects were found. The most important problems are the following: the "Target Group" lists have duplicate and misspelled values(QATC-769109). Furthermore, "Target Group" lists are not alphabetically sorted (QATC-769100).
Export facility	• Low	In this section 04 defects were discovered during the testing, Among them have priority Critical or Major. The most important defects are that "Excel" and "Plain text" formatted file export shows a "502 Bad Gateway" error (QATC-769138) and Description 2, Target group, location (town), Deadline (free text)" fields are not listed when exporting a Quark formatted file (QATC-769155).
Front-end	• Medium	In general, the quality of the module can be estimated as Medium. The overall number of defects in this module: 14. Some of them have priority Major and affect the quality of the module vastly. For example, Main website page is not showing by clicking on back button of the browser after visiting Opportunity hyperlinked site (QATC-768926), Search criteria is not fully followed on "England" country when searched (QATC-768949). After selecting "German" language, the content shows some spelling defects and symbol interruptions (QATC-768964).
